We constantly have to face DOUBT as we strive to learn to live a life of faith.

Here’s some statements from spiritual giants:

“Doubt isn’t evidence of the absence of faith – doubt is the very essence of faith itself.”

“The struggle with God is not lack of faith – it is FAITH.”

“Faith is allowed to beat on God’s chest and complain. Faith is not always having positive emotions toward God or life!”

“A faith that is challenged by adversity or tough questions is often a stronger faith in the end.”

“Faith will thrive, not just survive, when it has been refined and purified in the fire of doubt.

“Doubt and faith can co-exist”
