

This is 'Peer Counseling Pause' with Reova Meredith

Faith is our greatest asset.

Faith just naturally grows in a life characterized by obedience. If there is no obedience, there is no faith. Faith is obedience.

If we are walking in Faith, there has to be risk – otherwise we wouldn't need faith!

One definition of faith might be "Obeying the revealed will of God and trusting Him for the results."

Faith begins with a simple step of obedience, based on all we know of God. As we obey He reveals more of Himself. The more He reveals, the more we can trust and respond. It is a cycle.

**God reveals Himself
We believe Him
We respond in obedience
God reveals more of Himself.**
