

This is “Peer Counseling Pause” with Reova Meredith

Filling a Need

Often people try to use things, places, and people to bandage a wound in the soul and meet a need that cannot humanly be met.

The need was created by God for only God to fill.

Everyone has emotional needs that they try to meet in invalid ways such as friendships, emotional affairs, ministry, church work, and obsessions with appearance, food and money.

They grab onto false ways to meet their needs.

People long to be valued as whole and complete persons, for what they are, not just for what they do. Many people search for another person to meet the need.

It is God only who satisfies emotionally. God wants to reside in that deep place of our souls.
